

CALVING / HEALTH PEN

Calving/Health Pen Order No. 008-00100

Loss of income due to low calving rates can make or break a producer. Powder River's 10 by 10-foot Calving Pen can pay for itself in the first season and add to your bottom line for years to come. This unit also makes an excellent sick pen.

POWDER RIVER CALVING / HEALTH PEN — GREAT MULTI-PURPOSE HEALTH PEN

- Safe and efficient pen for calving or doctoring
- Self-Catching Head Gate with safety release mechanism releases quickly and easily if an animal goes down
- Split squeeze panels, allowing full access while ensuring a safe confinement situation for operator and animal

FEATURES AND SPECIFICATIONS

- ✦ Panels and gates constructed of 14-gauge, 1½-inch square tubing.
- ✦ Self-Catching Head Gate with Safety Release Mechanism has two emergency trip releases that quickly relieve pressure on an animal's neck if needed. This unit also works well for those who prefer to calve with the animal on its side.
- ✦ Both Calving Pen squeeze panels swing 180 degrees – completely out of the way – crucial when animal is calving and requires assistance from more than one person.
- ✦ Both Calving Pen squeeze panels are split, allowing full access while ensuring a safe confinement situation for operator and animal.
- ✦ 10-foot gate is fitted with a sure latch closure for ease of use during one-man operation.
- ✦ Rope and cleat device keeps the animal contained. The device is quiet and safer than traditional metal ratchets.
- ✦ The 30-inch roll gate in the front of the calving pen provides easy access for the operator and is self-locking in the closed position
