Net Contents 16 oz (454 g)

**READ ENTIRE LABEL BEFORE USE.
NOT FOR USE ON HUMANS OR PETS.**

CENTRAL
Garden & Pet

AdamsTM Plus Inverted Carpet Spray kills adult fleas, hatching flea eggs, and ticks, cockroaches, and ants. (S)-Methoprene, the unique ingredient in this product provides 7 months' protection by preventing eggs from ever developing into biting fleas. For best results, use this product with Adams Plus on-animal products for complete control of fleas and ticks.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING

FOR USE IN THE HOME/GARAGE/KENNEL

1. **Identify treatment areas**, especially those where pets frequent, such as in and around pet's sleeping and resting areas. These are the primary areas where fleas, their eggs, and ticks are found. Before treatment, a test application should be made to upholstery, drapery, light-colored, delicate fabrics, or wood surfaces in an inconspicuous place.

2. **Prepare treatment areas.** All food processing surfaces and utensils should be covered during treatment or thoroughly washed after product use. Exposed food should be covered or removed. Remove pets, and cover and unplug aquariums before spraying. Remove motor vehicles before using in garages. For best results with Surface/Carpet treatments, vacuum thoroughly before spraying and discard vacuum bag in outside trash. This product may also be used for infested surfaces inside motor vehicles.

3. **Apply treatment.** For light flea/tick infestations, a single can treats 2000 square feet. For established flea/tick infestations and for continued control of fleas/ticks for up to 14 days, a single can treats 500 square feet. Hold container upside down 2-3 feet from surface, point actuator towards the surface and push button. Using a sweeping motion, apply a light uniform spray to all surfaces of furniture, rugs, carpets, drapes, and around all pet resting areas. Avoid thoroughly wetting surfaces. Mist treated areas only until "slightly damp". Do not over-treat. Reapply in 14 days, if necessary. **IMPORTANT:** Only complete and proper application to carpets, upholstery, drapes, and other fabrics will provide thorough flea/tick elimination. Keep children and pets out of areas during treatment. Vacate room after treatment, and ventilate until surfaces are dry before reoccupying.

4. **For best results**, eliminate fleas/ticks on your pet with appropriate Adams Plus on-animal products.

For cockroaches: Spray into hiding places such as cracks, crevices, behind sinks, cabinets, along baseboards and floors, around drains and plumbing, hitting insects with spray whenever possible.

For ants: Spray trails, nests, and points of entry. Spray on ants where possible.

STORAGE and DISPOSAL: **Storage:** Store in a cool dry area. Do not transport or store below 32° F. **Disposal:** Do not puncture or incinerate. **If empty:** Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP for disposal instructions.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS - CAUTION: Avoid contact with skin or clothing. Wash thoroughly with soap and water after handling. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.
