PORTABLE DOG KENNEL

INTRODUCING THE MOST VERSATILE PORTABLE DOG KENNEL EVER.

Take everything with you on your next hunting excursion with High Country Plastics Portable Dog Kennel. Featuring a moisture resistant seal on the top compartment and an integrated water tank base, this kennel offers convenience and safety all in one package.

TEMPERATURE CONTROL

The UV protected plastic on the top compartment and 10 gallon water tank act as insulator during cold weather months by trapping dead air space. The water tank assists in keeping the kennel cool during the warmer months when full of water.

TOP COMPARTMENT

OVAL HOLES FOR EASY TIE DOWN

OVERSIZED FILL CAP

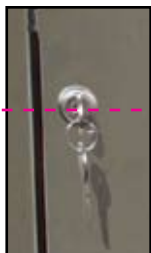

3/4" GARDEN HOSE SHUT-OFF VALVE

KEEP DIRT AND MOISTURE OUT AND EVERYTHING ELSE IN.

MOISTURE RESISTANT TOP COMPARTMENT

The top storage compartment features a moisture resistant rubber seal to keep dirt and moisture out. The 4" deep tray allows you to store your gun and shells, emergency supplies, hunting supplies or supplies for mans best friend with the security of locking latches.

SECURITY

The door features a slam latch and keyed lock. For your preference, the hinge can be mounted from the left or right side.

VENTED PANELS

Side panels are manufactured from .063" mill finished aluminum. Three sides have stamped louvers for ventilation which help resist rain or snow from blowing in. Louvers allow dog to see out but nothing sees in.

10 GALLON WATER TANK

The water storage base is constructed of high quality FDA approved UV protected plastic for fresh drinking water. A large, oversized fill spout makes filling easy while the dispensing spout has an integrated valve with a threaded, hose attachment. The built in drain on the floor makes cleaning your dog kennel easy.
