## The ESTRUMATE<sup>®</sup> Edge compared to a single injection of LUTALYSE<sup>®</sup> (dinoprost tromethamine injection).<sup>1,2,3,4</sup>

**+8.4%**

HEAT DETECTION RATE

**+3.9%**

CONCEPTION RATE

**+4.4%**

PREGNANCY RATE

#### IMPORTANT SAFETY INFORMATION

**ESTRUMATE:** Do not administer ESTRUMATE to a pregnant cow unless abortion is desired. Severe localized post-injection clostridial infections have been reported; in rare instances infection has led to death. Women of childbearing age, asthmatics, and persons with respiratory problems should exercise extreme caution when handling ESTRUMATE. ESTRUMATE is readily absorbed through the skin and can cause abortion and/or bronchospasms; direct contact with the skin should be avoided, and accidental spillage on the skin should be washed off immediately with soap and water. For complete safety information, refer to the product label.

**FERTAGYL:** Not for use in humans. Keep out of reach of children. For complete safety information, refer to the product label.
