

Aureo S-P 250[®]

G

Aureomycin[®] chlortetracycline, Sulfamethazine, Penicillin

Active drug ingredients	Aureo S-P 250 – Type B Medicated Feed Chlortetracycline calcium complex equivalent to Chlortetracycline HCl 10 g/lb Sulfamethazine 2.2% (10 g/lb) Penicillin (from procaine penicillin) 5 g/lb
Ingredients	Roughage products, calcium carbonate, calcium sulfate, and dried <i>Streptomyces aureofaciens</i> fermentation product
Indications	For reduction of the incidence of cervical abscesses; treatment of bacterial swine enteritis (salmonellosis or necrotic enteritis caused by <i>Salmonella choleraesuis</i> and vibronic dysentery); prevention of these diseases during times of stress; maintenance of weight gains in the presence of atrophic rhinitis; growth promotion and increased feed efficiency in swine weighing up to 75 pounds.
For use in the manufacture of swine feeds	
Mixing directions	Use 10 lb (4.54 kg) Aureo S-P 250 per 1 ton (907.2 kg) of final feed. Make a preblend of 10 lb of Aureo S-P 250 with part (15-20 lb) of the feed ingredients. Mix thoroughly with the remainder of the ingredients to give a final concentration of 100 g chlortetracycline, 100 g sulfamethazine, and 50 g penicillin per ton of feed.
Warning	Withdraw 15 days prior to slaughter
