

BATZIBELT™

the *PET SEAT BELT*

DIRECTIONS: First make sure the shackle is unsnapped from the BATZIBELT™. Then, by spreading the circular end of the shackle slightly, slip it over any car seat belt or shoulder harness (see Figure A). The seat belt should be fastened. Then snap one of the snap hooks of the BATZIBELT™ through the shackle's circular end and snap the other snap hook onto your pet's harness or collar (see Figure B). A good strong harness will be safest. Now your pet can move around freely in a limited area. In case of a quick stop, as in hard breaking, the seat belt should lock and protect your pet. The shackle can be left on the seat belt and will not be in the way when a passenger sits in the seat.

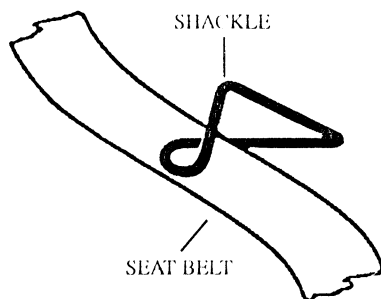

Figure A.

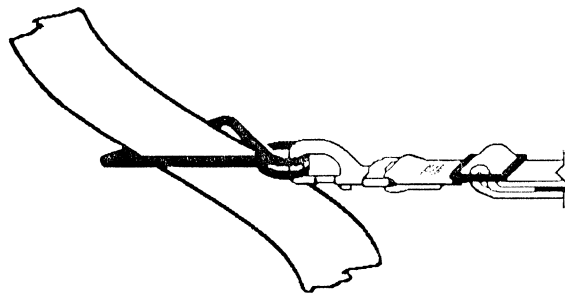

Figure B.

The shackle is made of stainless steel and will not rust.

WARNING: This is a pet restraint ONLY and should NOT be used as a restraint or safety device for children.

Two sizes - one for small dogs and cats, and one size for larger dogs.

Fastens to any seat belt, foreign or domestic.

Adjusts to any harness.
