

A Better  
Panic Snap

# Turtle Snaps™

"Easy-To-Use, Quick-Release  
Breakaway Snaps.  
Designed for use again and again."

## "Here's How It Works"

**WHEN YOU'RE CLOSE-** Pull *anywhere* on the large outer cover to release.

**WHEN YOU CAN'T GET CLOSE-** Turtle Snaps™ are designed to release from a horse's halter under a high panic load - alleviating some of the worry and often preventing unnecessary injury to your horse.

**Pull ANYWHERE**  
on the outer cover  
to quick-release.

### Step #1

#### **PULL The Strap**

When the strap is pulled - by you or your horse - the snap stays shut tight.

### Step #2

#### **PULL Anywhere on Cover to Release**

The EXTRA-LARGE outer cover offers maximum grab surface for quick-release.

### Step #3

#### **Button SLIDES Forward to Attach**

The button on the side is just used to open the snap. Slide the button forward to split the jaws and attach.

**Breaking expensive halters, ties and hardware.**

**Turtle Snaps™** are designed to release from a horse's halter under a high panic load. With Turtle Snaps, you can often avoid potential injury to your horse and prevent broken tack.

**6" Turtle Snap Extension (item # 02731)** Available in black. An easy way to add a quick-release feature to your existing ties and leads. The unique split-jaw design with extra-large outer cover provides **maximum grab surface** for quick-release under a high panic load. **Note: Not for use with elastic strap or elastic rope.**

# Turtle Snaps™

**"Easy-To-Use, Quick-Release/Breakaway Snaps"**
