

Rescue® Fly Tape

Sterling International

Optical response fly trap

- VisiLure® technology lures flies with appealing colors and a multi-dimensional pattern
- Odor-free
- Easy to unroll and hang

Placement:

- Before unrolling Fly Tape, determine where it will hang. Tape can be placed indoors or outdoors, suspended overhead or against a wall, and wherever flies are a nuisance.
- Avoid windy areas as tape could move and stick to nearby surfaces. Keep clear of doorways and drafts if hanging against a wall.

Instructions:

1. Grasp the green and clear ends, snap apart and slowly unroll tape. Unrolled tape will be sticky and ready to catch flies.
2. Insert the provided thumbtack, or other string or wire, through hole on green top and firmly secure to ceiling, wall, frame, post or other stable surface.

Avoid touching the sticky tape surface. If adhesive contacts skin or hair, gently pull tape away and the adhesive will release. Use petroleum jelly, baby oil or mineral oil to remove any adhesive residue.

Keep out of reach of children and pets.

Buyer assumes all risks for use not in accordance with product's intended use, instructions and cautions.
