

SADDLEBROOK BARNCAMS® LLC

Wireless Camera Solutions for Metal Barns

*SEE what
you've been
missing!*

Our wireless Metal Barn System offers you peace of mind and security. It features all-steel cameras with wide angle lenses *plus audio* and comes complete with everything you need including camera (black/white or color), transmitter, and a receiver that connects to any TV. Plus, you can view up to four cameras on a single TV with our new auto switching receiver. Best of all, it's *wireless from building to building*, making it super easy to install. The standard models transmit up to 500 feet, or 1000 feet with the optional high gain receiver. A high power transmitter is also available which can extend the range to *one mile*. We offer a one-year warranty and outstanding customer service.
