

SEI/ASTM – Every Troxel helmet is certified and carries a crash replacement warranty.

In molding – Fuses the outer shell and the impact absorbing liner creating a better impact-absorbing helmet with no “oil-canning” of the shell.

XR – A patented, internal polycarbonate ring is molded inside the impact-absorbing helmet with crush resistance.

GPS I – The original equestrian helmet stabilization system. The GPS I gently cradle the back of the head to reduce helmet “bob” and provide a secure fit.

GPS II – The GPS II adds “quick-fit” to the original GPS system. The soft-touch dial permits quick and precise helmet adjustment.

GPS III – The ultimate in quick-fit and micro-adjustment. The GPS III adjust with a light touch, also adjust vertically and is ponytail compatible.

Flip-Fold – The Flip-Fold Fit System provides a flip adjusted, inner liner that adjust either the helmets length or width to accommodate head shapes. Adjustment is made by simply folding over the integrated tabs.

Pittards Leather – Pittards WR100X is the latest in sports leather development. Engineered to resist moisture from either rain or perspiration and will dry soft and with its original characteristic beauty.
