- Easy Adjustable Floor
- Hydraulic Cylinders are up and tucked away
- 5 Year warranty on chute (less hydraulics)

Description: H2000 Hydraulic Chute (Order #002-55000)

The H2000 Hydraulic Squeeze chute is an all-purpose squeeze chute that is rated for most animal sizes. With an MSRP of \$7,000 (not including shipping, taxes, and fees) it is affordable to most cattlemen desiring to incorporate hydraulics in their operation. The headgate and center squeeze both utilize rack and pinion mechanisms that aid in keeping operator and animal away from moving parts and dangerous linkages.

Physical Dimensions:

Chute Weight:	1611 lbs.	<u>Internal Dimensions:</u>	
Overall Length:	96" (98" with clevis)	Stanchion Height	64"
