

Caring for your Brookside Blanket

Wash in cool temperature (max 85 degrees F) water. Only mild soap such as Horseware Rug Wash #29339 should be used or the protective coating of your blanket may be compromised. Rinse thoroughly and line dry (never machine dry) before storing in a cool dry area. Please remember that hand washing will prolong the life of your blanket. eZall foamer works well to hand wash blanket, #39384 or #36347.
