Features

Contains 20% diazinon.

White color.

Uses Allflex® Universal Total Tagger™ Applicator.

10 gram total weight.

Benefits

Use on beef cattle and non-lactating dairy cattle.

Effective against pyrethroid resistant horn flies for up to 3 months.

Economical fly control.

Advantages

Economical 3 month fly control for cattle on pasture or range.

Allflex is a registered trademark of Allflex USA, Inc.
Universal Total Tagger is a trademark of Allflex USA, Inc.

Dosage and Administration

For optimum pest control, attach one tag to each ear (two per head) when pests first appear. Replace as necessary. This product has been proven effective against pyrethroid resistant horn flies for 3 months. Apply with the Allflex® Tagging System. Calves less than 3 months of age should not be tagged as ear damage may result.

Precautions

Store in a cool place in the original container.

Opened pouches containing ear tags should be resealed for storage.

Do not contaminate water, food or feed by storage or disposal.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS. WARNING.

Harmful if absorbed through the skin or if swallowed. Avoid contact with skin and eyes. Wash thoroughly with soap and water after handling and before eating or smoking. Wear clean gloves daily when applying tags.

ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. Do not apply directly to water. Do not contaminate water by disposal of used tags.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Reformulation or repackaging of this product is prohibited.

For optimum pest control, attach one tag to each ear (two per head) when pests first appear. Replace as necessary. This product has been proven effective against pyrethroid resistant horn flies for three months. Apply with the Allflex® Tagging System (Figures 1-4). Calves less than 3 months of age should not be tagged as ear damage may result. Tags should be removed prior to slaughter.

Figure 1.
Disinfect pliers prior to use. Place female tag under clip by depressing lever. Collar on tag must be pointing down.

Figure 2.
Slide male button on pin. Align tip of male button with female portion of tag. Tag and button are now ready for application.

Figure 3.
Position tag on the flat surface in center of ear. Do not allow shaft of the male button to penetrate any cartilage rib or blood vessel or ear damage may result.

Figure 4.
When properly positioned, the tag should hang as shown.

STORAGE AND DISPOSAL

Store in a cool place in original container. Opened pouches containing ear tags should be resealed for storage. Do not contaminate water, food, or feed by storage or disposal. **Pesticide Disposal:** Waste (spent tags) resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. **Container Disposal:** Dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

WARRANTY AND LIMITATION OF DAMAGES

Seller warrants that this material conforms to its chemical description and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use and Buyer assumes the risk of any use contrary to such directions. **Seller makes no other express or implied warranty, including any other express or implied warranty of Fitness or of Merchantability, and no agent of Seller is authorized to do so except in writing and with a specific reference to this warranty.** In no event shall Seller's liability for any breach of warranty exceed the purchase price of the material as to which a claim is made.
