

Kwik Klip® Car Safety Harness

OmniPet™

Description:

Secures a pet in car seat for a safe ride. Fastens with any standard seat belt.

Directions:

1. Place the padded chest strap between the dogs front legs.
2. Place the top strap around the dogs upper chest/neck area.
3. Place the bottom strap around the dogs chest behind his front legs, snap buckle.
4. Slip vehicle seat belt through the loop on the back of the harness. Buckle and tighten as needed.

Helpful Tips:

Most dogs will be comfortable with the Kwik Klip Car Safety Harness, but some will need some time to adjust to being restrained. Before using harness in your vehicle, let your pet try it on at home-wearing it for short periods of time. Then try short car trips. Once your dog is accustomed to the harness, he will look forward to wearing it because he'll know it means he's going for a ride. If your pet must be left unattended in the vehicle, it is best to unbuckle the seat belt to allow movement. Be sure to re-fasten the belt before continuing your trip.

Size Chart:

#909 Sizes	General Breed Guide	General Weight Guide
XS	Yorkie, Miniature Poodle	Under 8 lbs.
S	Toy Poodle, Westie, Fox Terrier	9-25 lbs.
M	Beagle, Cocker Spaniel	25-50 lbs.
L	German Shepherd, Boxer, Lab	50-80 lbs.
XL	Great Dane, Saint Bernard	Over 80 lbs.

Warning:

Be careful leaving pets in vehicles for any length of time. Excessive heat & other factors can be fatal.
