Use Farrier's Magic® Action For Healthy Joint Function

HIGHLY FORTIFIED WITH MSM, HYALURONIC ACID, CHONDROITIN SULFATE and GLUCOSAMINE HCl

Farriers Magic® Flex-N-Action™ Pelleted Joint Product supplies support for horses facing strains of aging, training and competition and provides comprehensive support of connective tissue and natural lubricants.

Glucosamine HCl – Helps maintain or facilitates the production of Hyaluronic Acid (joint fluid) and Chondroitin Sulfate.

Chondroitin Sulfate – Crucial elements of cartilage and are also found in skin, blood vessels and other tissues.

Hyaluronic Acid – Naturally produced. Provides lubrication and absorption for joints.

Methylsulfonylmethane (MSM) – Organic sulfur animal product important in the maintenance of connective tissues.

Made in U.S.A.
