# Hip Bones™, Jr.

For The Small and Mighty™

*It's the  
Cherries!™*

("My parents' true story, as told to me.")

## "Our life has gone to the small and mighty dogs!"

With a farm smack dab in the middle of "cherry country" we had heard for years about how the wonderful properties of **tart cherries** help to **maintain healthy hips and joints**. We wondered -why does tart cherry concentrate carry such a powerful punch? While asking a few folks at our leading university, we discovered that researchers were asking the same questions - and even patented their discoveries. Overby Farm licensed these patents and got to work!

**Hip Bones™** *The Original Cherry Dog Treat* started our adventure into healthy functional dog treats. The powerful antioxidants in **tart cherries** have truly found a place in both human and pet nutrition. Many dog owners asked us for a smaller cherry dog bone and ~ voila!~ **Hip Bones™, Jr.** were born!

**Hip Bones™, Jr.** are not only a tasty treat for your dog, they are full of carefully selected natural ingredients supporting strong bones and healthy joints.

Our dogs love these little treats and we hope your pals do, too!

*Carol and Bob Adams*  
OVERBY FARM

**VETERINARIAN RECOMMENDED**
