VETERINARIAN RECOMMENDED

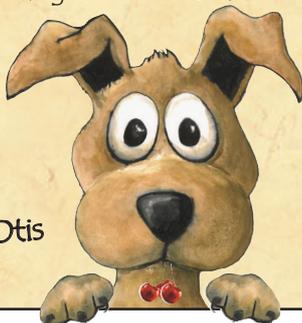

Our Story Behind Hip Flex™

Hip Bones™ ~ *The Original CHERRY Dog Treat™*, is now distributed throughout the U.S. The benefits attributed to tart cherries continue to spread and grow as our population chooses natural and functional foods to support healthier life styles.

Overby Farm's new goal was to formulate a soft chewable specifically for the **active and aging canine**. Working closely with our university experts and practicing veterinarians, we developed a soft-moist chewable with more tart cherry concentrate and lots of other natural ingredients supporting healthy joints and hips.

That's exactly how Hip Flex™ was born~a soft chewable with a "kick"!

Our dogs love 'em and we hope your pals do too!

Cautions

Do not use in pregnant animals, animals intended for breeding, or prior to surgery. Consult with your veterinarian before using this product in animals, with clotting disorders, being treated with anticoagulant medications, diabetes, or any metabolic disorder causing hyperglycemia, history of urinary tract stones, known allergies to shellfish. If lameness worsens, discontinue use and contact your veterinarian. Administer during or after the animal has eaten to reduce incidence of gastrointestinal upset. May cause gastric reflux.

For canine use only. Formulated to promote joint and hip health in active and aging canines.

Directions for Use

Administer one chewable for every 25 pounds of the dog's body weight daily.

Warnings

For animal use only. Keep out of the reach of children and other animals. In case of accidental overdose, contact a health professional immediately.
