

FIT YOUR HELMET IN 3 EASY STEPS:

1 TRY

- a) Open the **DialFit** if the helmet comes with this feature.
- b) Try on the helmet. It should fit snug but not be uncomfortable.

2 ADJUST

- a) Adjust the inner padding by folding under the **FlipFold™** tabs for more or less cushion.
- b) Adjust the side glides on the straps to sit underneath your ears to form a "V".
- c) Adjust the length of the retention system straps to fit snug under your jaw and use the o-rings to secure the excess.
- d) To fine tune your fit, engage the **DialFit** or adjust the slider of the elastic bands on the **SureFit™**.

3 CHECK

With your helmet level on your head, check the fit and straps and make sure the buckle is locked securely.
