This 25(b) product is exempt from registration with the Federal Environmental Protection Agency under FIFRA regulations.

KEEP OUT OF REACH OF CHILDREN

Precautionary Statements and First Aid: Do not ingest or inhale. Avoid contact with eyes. If ingested, inhaled, or in contact with eyes call your poison control center.

Directions for Use: Simply add hook to black cap, remove white cap, add warm potable water to fill line, replace white cap and shake, remove white cap, attach black cap, and hang on edges of property. Place one box per acre on your property (more than one box can be used). Use two boxes per acre to catch up if deploying for the first time and mosquitoes are already established. **Ideal placement is in opposite corners of the property, hanging near a tree trunk about 6 feet above the ground in shaded areas along the property line.** See additional instruction on package insert and online at www.spartanmosquito.com.

Storage and Disposal: Storage: Keep packages out of reach of children. Prior to use store in a cool dry place. **Disposal:** Waste resulting from the use of the product can be disposed of by placing the product in a garbage bag and cinch the opening to close. Place the garbage bag in an outside receptacle. **DO NOT RECYCLE.**

Active Ingredient: Sodium Chloride 11.48%
