Naturally Active Ingredients	Non-GMO	Made With 100% Beef

Contains 100+ Supplement Sticks

### **Help Protect Your Dog Against the Premature Effects of Aging**

CannaLove Antioxidant K-9 Support delivers a blend of 4 powerful antioxidant agents to aid in the prevention of cell damage caused by free radicals found throughout your dog's body. Free radical oxidation damage is a primary cause of aging and disease. Antioxidants keep free radicals from ravaging your body and stealing the life from your cells. Antioxidants are intimately involved in the prevention of cellular damage—the common pathway for cancer, aging, and a variety of diseases that may affect your pet's health. Although there are several enzyme systems in your dog's body to fight the dangers of free radicals, these are not enough to sustain overall good health. CannaLove Antioxidant K-9 Support provides a unique cascading antioxidant system not found in other pet products. Continued use of CannaLove Antioxidant K-9 Support can help to build and support the following:

- Healthy Blood, Circulation & Cell Vitality
- Healthy Heart & Cardiovascular System
- Maintenance of Healthy Bones, Teeth, Skin, Hair & Nails
- A Strong Immune System
- Vigor & Vitality & Decreased Lethargy

### **Feeding Guidelines:**

Up to 25 lbs: 1 Stick
