AniMeds Via-Calm with Hemp is formulated to help horses exhibiting nervousness from environmentally induced stress. The combination of hemp, l-tryptophan, thiamine, calcium and magnesium promotes a sense of relaxation and mental alertness without drowsiness. Hemp supports healthy function and balance of the body's endocannabinoid system (ECS), enhances the physical and mental well being of y our horse and helps support cognitive function. Via-Calm with Hemp is for use in horses only.

Directions For Use: Provide horses of all classes and ages 1 to 2 tablespoons per 1000 lbs. of body weight daily, or 2 to 4 tablespoons 1/2 hour prior to an event which may create excitement or stress. Or, as recommended by your veterinarian. The large end of the enclosed scoop measures 1 tablespoon, or approximately 1/2 ounce.

Warnings: For animal use only. Keep out of the reach of children and animals. In case of accidental overdose, contact a health professional immediately. This product should not be given to animals intended for human consumption.
