^Reported on a hydrous basis.

**From manganese ascorbate.

Administration as a supplement for dogs:

The recommended initial administration period is four to six weeks; however, some dogs may respond in a shorter period of time. The number of scored chewable tablets may then be reduced to the maintenance level.

Number of Tablets

Dog’s Weight	Initial 4-6 week	Maintenance
	Administration Period	Level^
Up to 15 lbs.	½ Daily	½ Every Other Day
16 - 30 lbs.	1 Daily	½ Daily
31 - 60 lbs.	2 Daily	1 Daily
Over 60 lbs.	3 Daily	1 – 2 Daily

Once consistent improvement has been seen, these maintenance levels may be reduced to every other day administration. The maintenance level can also be used long term on healthy dogs to help support their joints.

Store in a cool, dry area out of direct sunlight. Keep lid tightly secured to ensure freshness. Keep bottle out of the reach of children.
