

Digestive Health Pellets

Formula 707®

Quality products for the life of your horse since 1945

Probiotic to support healthy digestion in horses. Contains a source of live (viable) naturally-occurring microorganisms for all classes of horses.

We know the importance of your horse's health and success. Over 75 years ago, in LaSalle, Colorado, we began our company with a passion for excellence in equine nutrition. Today, we continue to manufacture our products in our own facility, ensuring every step of the process delivers the freshest, highest quality product at the best value.

Formula 707 Digestive Health is formulated for complete digestive support. It contains microencapsulated probiotics and prebiotics to help promote healthy gut bacteria, as well as viable yeast cells for improved digestion. Feeding Digestive Health is especially useful during times of stress, illness or changes in diet or environment.

Microencapsulated Probiotics

Enhanced absorption in the hindgut

Viable Yeast Cells

Supports a healthy population of beneficial bacteria
