

Muscle Mx Pellets

Formula 707

Empower your horse's metabolism to build optimum definition and muscle mass.

We know the importance of your horse's health and success. Over 75 years ago, in LaSalle, Colorado, we began our company with a passion for excellence in equine nutrition. Today, we continue to manufacture our products in our own facility, ensuring every step of the process delivers the freshest, highest quality product at the best value.

Formula 707 Muscle Mx is a natural supplement that combines four ingredients for muscle growth. Lysine builds muscle proteins, Gamma oryzanol aids in weight gain, Creatine boosts energy production in the muscle cells, and Ornithine-A-Ketoglutarate (OKG) bypasses inhibitory processes for new muscle development. Muscle Mx delivers real, natural results.

Ornithine-A-Ketoglutarate (OKG)

Promotes Muscle development

Gamma Oryzanol

Enhances Muscle Energy

Lysine

Builds Muscle Proteins
