

Tight Joint Plus

Lazy K Tack Supplements & Supplies

All Natural Joint & Soft Tissue Support

Tight Joints Plus provides your horse with the most effective team of nutraceuticals on the market today. Using only the highest form of ingredients available, we have combined the joint support properties of glucosamine, hyaluronic acid and turmeric extract with the cell health and collagen synthesis properties of MSM in one convenient supplement. **Tight Joints Plus** also supplies the horse with additional natural ingredients that help manage normal discomfort caused by daily exercise and training, and it helps support the structural integrity of joint connective tissue and helps maintain joint mobility.
