- GLYCINE FOR ABSORPTION- Added Glycine for Fast & Effective Absorption
- DEXTROSE FOR ENERGY- Provides a quick Boost of Energy During Illness or Strenuous Activity

60 seconds or less- smooth, easy mixing

ANNUSO Balance EQ is an electrolyte supplement specifically formulated to support hydration and recovery in horses during times of stress. Balance EQ can be feed to horses experiencing dehydration due to heat, transport, intense exercise, or illness, as well as during periods of reduced feed or water intake. This carefully balanced blend of electrolytes, energy sources, and essential nutrients helps replenish lost fluids and supports normal fluid balance, performance, and overall vitality.

Directions

1. 2 Quarts of Warm Water + * Tbsp of Balance
2. Mix Thoroughly Until Smooth
3. Pour & Feed Balance

Feeding Guidelines

Species	Balance Powder	Warm Water (110°F-120°F)	Feeding Guidelines
Foal	8 Tbsp (4 oz)	2 QT (8 Cups)	Feed 1 1/2 -2 quarts of reconstituted mixture per 100 lbs. of body weight, 2 times daily
Adult Horse	8 Tbsp (4 oz)	2 Gallons	Offer free-choice from a pail during times of dehydration, stress or transport

Feed during times of stress, dehydration, or digestive upset to help support hydration and electrolyte balance. Add powder to warm (110°F-120°F) water and stir

until completely dissolved. Feed at the animal's body temperature. Do not mix into milk or milk replacer. Continue regular milk or milk replacer feedings unless otherwise directed.

- Animal body weight varies.
- The mixing chart above is a guideline.
- Contact your veterinarian for nutritional requirements.

Storage

- Discard any unused solution after 24 hours.
- Store unused powder at room temperature in a dry place.

Warning

- If product is moldy, infested (insects, rodents, or other pest) or appears abnormal in color or smell, DO NOT FEED.
- Not for human consumption.
- Do not exceed feeding recommendations.
