

# Hoof Medic + Collagen & HA

**AniMed®**

**Achieved through science, approved by animals®**

## **Total Hoof Care**

For horses of all classes

Formulated to support thin walled, weak hooves and offer vital support for normal hoof growth.

AniMed's Hoof Medic with collagen for horses provides potent nutrients, boosted by collagen peptides and Hyaluronic Acid (HA), that work together to support cracked hooves and maintain flexible hoof walls. Hoof medic contains amino acids, Methionine and Lysine, essential for hoof growth, reinforced by the unique amino acid profile of collagen peptides. Zinc is added to help keratin development in hoof walls. Plant-based omega-3 fatty acids in our product maintain the pliability and hoof moisture. With B vitamins and choline, our special combination of vitamins and minerals gives hoof walls what they need to grow strong and tough.

## **Directions for use:**

Provide 4 scoops per 1,000lbs body weight for two weeks, then feed 1 to 2 scoops per 1,000lbs body weight daily for maintenance. Amount and frequency may be varied as necessary. The enclosed scoop is measured approximately 3/4 oz.

## **Active Ingredients per 1.5 oz (2 scoops):**

Type I and III Collagen Peptides 5,000 mg, Hyaluronic Acid (HA) 100 mg, dl-Methionine 8000 mg, Lysine 2200 mg, Biotin (Vitamin B-7) 50 mg, Pyridoxine (Vitamin B-6) 250 mg, Folic Acid 70 mg, Vitamin C 2000 mg, Vitamin E 70 IU, Choline 600 mg, Copper 100 mg, Manganese 50 mg, Magnesium 200 mg, Zinc 300 mg.

## **Inactive Ingredients:**

Full Fat Enzyme Active Soy Flour, Brewer's Yeast Supplement, and Natural Apple Flavor.

## **Cautions:**

If animal's condition worsens or does not improve, stop administration and consult your veterinarian. Safe use in pregnant or breeding animals has not been proven.

## **Warnings:**

Not for human consumption. Keep out of reach of children and other animals. In case of accidental overdose, contact a health professional immediately.

## **Storage and Handling:**

Keep tightly sealed and store in a dry place out of direct sunlight.
