

Lamb Start™

SF STRAUSS FEEDS®

Infant Animal Nutrition

Lamb Milk Replacer

- A high performance, complete non-medicated milk replacer recommended for lambs.
- Formulated with 24% all milk proteins and 20% for maximum nutrient absorption.
- Developed specifically for lambs from 2 days of age to weaning.
- Boosted by BioPrime Technologies for strong and healthy infant animals.

Mixing and Feeding Directions

Newborn lambs should be given colostrum (ewe's first milk) as early as possible and continue for the first 24 to 48 hours of life.

Refer to the following guidelines for mixing and feeding instructions. Remember, each animal is different and the guidelines below may need to be adjusted for body size and condition. In general, large animals will need more than smaller animals. Consult with a qualified veterinarian regarding health concerns.

For best mixing results, sprinkle the powder into warm (110°F) clean water and mix thoroughly with a whisk or powder mixer.

Mix 4 ounces of milk replacement powder (1 Measure*) into 1 quart of warm (110°F) water. Feed 2 to 4 ounces of this solution 4 times daily for the first week, then 8 to 12 ounces 3 times daily until weaning.

For ad libitum feeding, mix 16 ounces of milk replacer powder (4 Measures*) with 1 gallon of warm (110°F) water. Allow the solution to cool and then offer ad libitum through a suitable nipple feeder. Milk should be available at all times.

Provide a good quality lamb creep feed at 3 to 6 days of age and restrict hay intake to the amount a lamb will eat in 1 hour.

Wean lambs at a minimum of 30 days and weighing at least 25 pounds.

*The measuring cup provided in the bag holds approximately 4 ounces of milk powder replacer. For greater accuracy, a suitable scale is recommended.

Guaranteed Analysis

Crude Protein, Minimum	24.00%
Crude Fat, Minimum	30.00%
Crude Fiber, Maximum	0.15%

Calcium, Minimum	0.75%
Calcium, Maximum	1.25%
Phosphorus, Minimum	0.60%
Copper, Maximum	1 ppm
Selenium, Minimum	0.3 ppm
Lactose, Maximum	25.00%
Vitamin A, Minimum	30,000 IU/LB
Vitamin D3, Minimum	10,000 IU/LB
Vitamin E, Minimum	200 IU/LB
Total Microbial Count	8.33x10 ⁸ CFU/LB
(Bacillus subtilis)	

Ingredients

Dried Whey Protein Concentrate, Dried Whey, Dried Whey Product, Animal and Vegetable Fat (Preserved with BHT), Coconut Oil, Yeast Primary Dehydrated, Citric Acid, Dried Skimmed Milk, Lecithin, Dried Milk Protein, Dicalcium Phosphate, Calcium Carbonate, Magnesium Sulfate, L-Lysine, Silicone Dioxide, dl-Methionine, Maltodextrin, Dried Bacillus subtilis Fermentation Extract Product, Vitamin A Acetate, Vitamin D3 Supplement, Vitamin E Supplement, Iron Amino Acid Complex, Vitamin B12 Supplement, Thiamine Mononitrate, Ascorbic Acid, Manganese Amino Acid Complex, Zinc Amino Acid Complex, Selenomethionine Hydroxy Analogue, Biotin, Riboflavin, d-Calcium Pantothenate, Niacinamide, Choline Chloride, Menadione Sodium Bisulfate Complex (Source of Vitamin K3), Folic Acid, Pyridoxine Hydrochloride, Calcium Iodate, Polyoxyethylene Glycol (400) Mono and Dioleates, Artificial Flavor.
