Supports Healthy Growth and Development

100 % Complete and Balanced

Ready-to-feed formula

Trusted Quality Since 1930

- Prebiotic Fiber Helps Support Gut Health
- Antioxidants Help Support Immune Health
- EPA+DHA Help Support Cognitive Development

Directions for Feeding:

Product may settle over time. Shake before use. Esbilac can be feed as a complete diet for puppies unable to consume solid food, or as a nutritional supplement for weened puppies, pregnant or nursing mothers, and adult dogs.

Puppies: Feed 2 tablespoons (30mL) per 4 ounces (115g) of body weight daily. Puppies should be feed every 3-4 hours. It is recommended to use a nurser bottle when feeding. If possible, all puppies should receive colostrum by nursing on the mother for the first several days. Follow the recommended feeding amount to avoid digestive upset. Puppies should be weighed daily to ensure adequate growth. The daily feeding amount should be divided into equal portions for each feeding. Individual puppies' needs may vary. Warm Esbilac to room or body temperature before serving. Do not microwave directly.

Esbilac is formulated to meet the nutritional levels established by the AAFCO Dog Food Nutrient Profiles for All Life Stages including growth of large breed dogs (70 lbs. or more as an adult).
