

# Huf Lab Hoof Hardener

**LeoVet®**

## **Reduces cracking and abrasions**

Ideal for horses with chipped and brittle hooves, low heels, separating hoof walls, and for barefoot horses. Hoof wall and sole are strengthened. Secures a firm seat for the shoe. Added protection against hoof decay and makes the hoof significantly more durable.

## **Application:**

Apply to the clean, dry outer horn wall, and if necessary also to the sole, three times a week until the hoof is hardened, and once a week afterwards. Do not apply to the coronary band, heel and frog! For shod horses, apply up to the nail holes; for barefoot horses, also apply to the wall and the white line.

## **Active Ingredients:**

Tannin from oak bark, horse chestnut, biotin, sunflower oil, coconut oil, linseed oil.

## **Extra:**

With integrated brush

Effective without harmful chemical agents! Does not contain glutaraldehyde.

**Petroleum- Free**

**Made in Germany**
