

EquineZen™

Solvat™

Synthetic androstenone for topical use for horses to mitigate stress and anxiety.

Description: EquineZen™ contains synthetic androstenone, a patented pheromone for the modification of undesirable or harmful stress-related/ fear-related behaviors. EquineZen™ helps horses manage new and stressful stimuli, by eliciting an olfactory response to promote docile behavior.

Active Ingredients (per mL):

Androstenone, (5a-androst-16en-3-one) (0.0001%)	0.01mg/mL
Petrolatum (89.9999%).....	899.99mg/mL
Lanolin (10.000%).....	100.00mg/mL

US Patent 9480688

Recommended Use:

Use on healthy horses for maintenance of balanced behavior and mitigation of the negative impacts of stress induced by training, transportation, weaning, social mixing, new environments, healthcare procedures, and necessary management practices.

Directions for Use:

Wear non-permeable gloves. Apply ½ inch dollop to the skin at the base of each nostril prior to stress. Re-apply as needed.

User Safety:

Keep out of reach of children. Avoid direct contact with human skin. Wear appropriate protective equipment such as gloves. To be used in areas with good ventilation.

Storage:

Store in a dry, cool place (50-86°F). **Do not refrigerate or freeze.**
