

# **Orphan-No-More™ Calf Claimer Powder** **Springer Magrath®**

Aids in **assuring calf adoption** by natural or foster mothers

For Animal Use Only

**ORPHAN-NO-MORE™** has been specially formulated for use on newborn calves to assure adoption by natural or foster mothers and has been field tested on cattle in Nebraska and Iowa.

**Directions For Use:** Sprinkle a liberal amount of **ORPHAN-NO-MORE** down the backline from ears to tail head of the calf to be adopted. If the calf is dry, dampen the area before use to better assure adhesion. Whenever feasible confine mother (or foster mother) and calf in close quarters, preferable out of the wind, since odor plays an important role in calf adoption.

**PRECAUTIONS:**

Keep out of reach of children. Do not contaminate feed or water. Wash hands after using this product. For veterinary use only.

Powder works best at room temperature. Store in a cool, dry place with lid applied tightly.
