

Prime Time™ Adhesive

Sullivan Supply

DANGER: Extremely Flammable. Contents Under Pressure. Inhalation Of Vapor Harmful. Eye And Skin Irritant.

Prime Time is the leg adhesive with holding power ideal for medium length hair types. It creates hair body and volume with the clear, natural look you demand. Prime Time performs in all types of weather—winter, spring, summer or fall. It holds hair firmly in place and will not “wilt” or fall down in humidity. Dries completely, leaving the hair crisp so it can be clipped easily.

Directions:

Shake well before each use. To prepare leg hair before applying, begin by blow drying to remove any dirt. Next, use a roto brush over the entire leg to break loose the hair. Spray light coats of Prime Time as you continually comb the adhesive into the hair in the desired direction. Let dry. After all legs have dried, go back over each leg and spray a second coat and use a Fluffer comb to pluck at the hair to separate each hair strand to create more hair volume and to correct any problems until the desired look has been achieved. Remove with Sullivan's Hair Savior™ Adhesive Breakdown and Sullivan's VitaHair Volumizer™ Foaming Shampoo.

DANGER: EXTREMELY FLAMMABLE! Do not spray near heat, sparks, or open flame. Do not smoke. **WARNING:** Contains Methylene Chloride. Avoid contact with eyes or skin, as severe irritation can occur. Methylene Chloride may cause cancer. The risk to your health depends on the level and duration of exposure. **Keep out of reach of children.** **SAFETY DIRECTIONS: USE OUTDOORS IN AN OPEN AIR AREA.** If you must use indoors, cross-ventilate work area by opening all windows and doors and circulating fresh air through the work area to reduce vapor accumulation. Over exposure to vapors may cause symptoms of lightheadedness, nausea, headache, respiratory tract irritation or numbness in the extremities. If you experience symptoms of overexposure, increase fresh air or leave the area. Intentional misuse by concentrating and inhaling the product can be harmful or fatal. Wear safety glasses when using this product. A dust mask does not provide protection against the vapors. Contents under pressure. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F (49°C).

FIRST AID: **INHALATION:** First move person to fresh air. If not breathing, give artificial respiration and call 911. **EYE EXPOSURE:** Immediately flush affected eye(s) with water. Seek medical attention. **SKIN EXPOSURE:** Immediately wash skin with soap and water. Remove contaminated clothing and shoes and thoroughly clean before reuse. **IF SWALLOWED:** Immediately call a poison control center. Do NOT induce vomiting unless directed to do so by medical personnel.
