SWALLOWED.

Infused with Vita Hair™ nourishing vitamin package.

How do the VITA HAIR™ Nourishing Vitamins work?

Biotin vitamin is the first vitamin thought of when considering HAIR GROWTH. The major benefit of Biotin is its ability to strengthen both the hair follicle and the hair shaft, where the hair is produced, which prevents hair breakage and dryness. This is a proven, crucial step in the natural hair growing process. Biotin enriched hair has increased elasticity of the cortex which prevents breakage. This enables healthy, FASTER HAIR GROWTH. Biotin also thickens the hair cuticle providing a fuller appearance.

Pro-Vitamin B-5 is considered the king of all HAIR CARE vitamins. Pro-Vitamin B-5 stimulates healthy scalp circulation which leads to improved hair health. It coats the hair and seals its surface, lubricating the hair shaft making the hair shine. It possesses superior long term moisturizing properties because of its unique ability to penetrate and nourish the hair shaft.

Vitamin E is an antioxidant that stimulates circulation to the skin and supports capillary growth. The skin needs to have proper circulation in order to keep the hair follicles alive and thriving. When there are more capillaries, the circulation improves leading to increased nutrient absorption into the hair follicles, which speeds hair growth.

Naturally Healthy Hair...How?

Fresh and Natural, Hocus Pocus will not irritate hair or hide. This natural product is a healthy alternative that will make a difference in your show day wash out. The pure ingredients of Hocus Pocus are formulated to naturally attack and gently remove adhesives and touch-ups away from the hair to allow for superior cleaning. Hocus Pocus is fortified with non-drying emollients and nourishing antioxidant **VITA HAIR™** vitamins to naturally moisturize and soften the hair shaft. Refer to the top to learn how **VITA HAIR™** will rejuvenate your skin and hair. Most importantly being natural, Hocus Pocus is purified to be free of harsh abrasives, caustic chemicals, carcinogens, or corrosives that could burn or damage the hair and skin.

Hocus Pocus is quite simply, the only Natural adhesive remover we know of that naturally nourishes the skin & hair.

Hocus Pocus is the safe and effective remover of show day adhesives and touch-ups that is Naturally healthy for hair. Hocus Pocus will not leave an oily residue to build up heat or eat away leg hair. This makes Hocus Pocus ideal when re-fitting is needed in a short period of time. In fact, hair often performs better when re-fitting after using Hocus Pocus. Recommended for all livestock.

Directions: Simply spray onto hair where adhesives and touch-ups have been used. Comb or work into hair with a massage brush. Shampoo thoroughly with Sullivan's Break Away™ After Show Shampoo. Upon completion, hair will perform naturally with full body and volume. **In the event that you notice flaking or irritation, this is an indication that adhesives and touch-ups have not been thoroughly washed out. The natural ingredients in Hocus Pocus will NOT irritate the hide or hair.**

HELPFUL HINTS:

- After spraying Hocus Pocus and combing through hair, blow product out with a blow dryer for much easier washing.
- When heavy adhesives and touch-ups are used, allow Hocus Pocus to set in hair for 5 minutes before combing.
- If not showing the next day, apply Revive to moisturize and rejuvenate those areas that were fitted with adhesives.
- During daily work at home, if cattle have excessive grime deep at the hide, spray with Hocus Pocus, comb, then shampoo with Sullivan's Volumizer™ Nourishing Shampoo to purify the hide and hair.

CAUTION: Intentional misuse by deliberately concentrating and inhaling the product can be harmful or fatal. Keep away from heat, sparks and flames. Do not puncture or incinerate container. Do not expose to heat or store at temperatures above 120°F (49°C) as container may burst. Avoid exposure of can to long periods of sunlight. Use with adequate ventilation. **FIRST AID: EYES:** Rinse with water. Get medical attention if irritation develops and persists. **INHALATION:** If symptoms develop move victim to fresh air. Get medical attention if symptoms persist. **INGESTION:** Immediately call a poison center or doctor. If vomiting occurs, keep head low so stomach content doesn't get into the lungs. Do not induce vomiting without advice from poison control center
