

# Tail Adhesive™

## Sullivan Supply®

Tail Adhesive has unmatched holding power for the flat lying, hard-to-hold hair on legs and for shaping the tail ball. You can depend on Tail Adhesive to dry completely and hold its firm shape in all types of weather and humidity with no wilt or fall-down. It is tremendous for creating texture, fullness and building up each hair follicle. The level of performance and real hair-like appearance is unrivaled.

**DIRECTIONS:** Shake well before each use. Begin blow drying to remove any dirt and use a roto brush over the entire leg to break loose the hair. Spray a light coat of Tail Adhesive. Using a fine tooth metal comb, work it deep into the hair in the desired direction to fully coat each hair strand, not just the tips. Let dry and follow by using a Fluffer Comb to pluck at the hair to break the hair strands apart to create more volume and fluff. Remove with Sullivan's Undress™ Adhesive & Touch-Up Breakdown and wash out with Sullivan's Break Away™ After Show Shampoo.

**DANGER:** FLAMMABLE! Do not spray near heat, sparks, or open flame. Do not smoke. Do not puncture container. Contents under pressure. Do not expose to heat or store at temperatures above 120°F (49°C) or expose can to long periods of sunlight as container may burst. Suspected of damaging fertility or the unborn child. KEEP OUT OF REACH OF CHILDREN.

**SAFETY DIRECTIONS:** USE OUTDOORS IN AN OPEN AIR AREA. If you must use indoors, cross-ventilate work area by opening all windows and doors and circulating fresh air through the work area to reduce vapor accumulation. Over exposure to vapors may cause symptoms of lightheadedness, nausea, headache, respiratory tract irritation or numbness in the extremities. If you experience symptoms of overexposure, increase fresh air or leave the area. Intentional misuse by concentrating and inhaling the product can be harmful or fatal.

**FIRST AID:** EYES: Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses if present and easy to do. Continue rinsing. SKIN: Remove contaminated clothing and wash the skin thoroughly with soap and water after work. INHALATION: If symptoms develop, move victim to fresh air. INGESTION: Rinse mouth. Get medical attention if irritation or any symptoms develops and persists.
