MED-VET PHARMACEUTICALS

EXPERIENCE THE DIFFERENCE WITH **EXCEED 6-WAY™**

JOINT SUPPORT

Maintaining healthy joints is key to a horse's performance and helping him move comfortably for years to come. Research shows that providing ingredients like glucosamine, chondroitin sulfate, hyaluronic acid, and MSM may be beneficial in supporting joint health and promoting a natural inflammatory response.

HAIR COAT

There is no need to buy extra supplements in hopes of growing a longer mane and tail when you can get what you need in a daily serving of **Exceed 6-Way™**. Omegas, Biotin, and Vitamin A, E, and D3 play an important role for healthy skin and hair coat.

MUSCLE FUNCTION

Muscles are responsible for a horse's movement, posture, joint stability, and performance. **Exceed 6-Way™** provides actives to support your horse's overall body condition, topline, muscle function, recovery, and more.

DIGESTION

Proper digestion is crucial in a horse's overall health, including a strong immune response. **Exceed 6-Way™** provides a high level prebiotic/probiotic blend as well as active yeast culture to help restore natural microbial balance and support healthy digestive function.

GASTRIC SUPPORT

Stress from competition, trailering, training and more can put your horse at risk for gastric upset. Slippery Elm, Licorice, Gelatin, etc. help support healthy stomach tissue, soothe and coat the GI tract, and provide a natural protective barrier against the abrasiveness of gastric juices.

HOOF HEALTH

Your horse's hooves are their foundation and hoof health starts within. **Exceed 6-Way™** provides your horse with a daily dose of active ingredients (Biotin, Zinc, Copper, dl-Methionine, and Manganese) necessary for strong, healthy hooves.

**Give us 60 days...
