

XL CHUTE W/SIDE EXIT

XL Manual Chute with Right Exit Order No. 002-10052

The Powder River XL Manual Squeeze Chute with Right Side Exit is Powder River's top selling squeeze chute. This chute will stand up to the toughest of conditions. It will handle bulls, large cows, and even calves if necessary. If you are debating between a Value Chute and the XL Chute, go with the XL. It will hold its value and last for many years to come, no matter how many head you run through it.

XL CHUTE FEATURES AND SPECIFICATIONS

- ★ Head Stanchion, Center Squeeze, split tailgate controlled from one position enabling one-man operation
- ★ Drop side pipes allow animal access from both sides for vaccinating, pour-on, etc.
- ★ Tailgate locks open, allowing one-man operation of the tailgate while working animal into the chute
- ★ Designed for animals up to 2500 lbs.
- ★ Positive locking side exit latch prevents side exit from accidentally opening
- ★ Safety latch provides operator assurance on chute's exit side
- ★ V-Pattern squeeze provides even pressure on animal to keep them in a balanced upright position while being worked

Bolt-on Neck Extender
Order No. 002-20000

RANCHERS CHOOSE POWDER RIVER XL CHUTES

- Great investment — holds value
- V-Pattern squeeze provides even pressure and keeps cattle in a balanced and upright position
- Works in the toughest of conditions with very little maintenance required

Side Exit

All XL Chutes include a side exit, which swings fully open.

Split tailgate

Sheeted Split Tailgate keeps animals from backing up in the chute.

Hinged Kick Panels

Additional support of neck and head with Bolt-on Neck Extender. Fits any XL Manual Chute with bolt-on Urethane Yokes.

Our kick panels are hinged yet still totally removable. The panels are heavy gauge to reduce noise in the chute.

The XL Chute with Self-Catch Head Gate includes all the features listed above. It is the same chute as the XL manual, with the exception of the Head Gate. The self-catch Head Gate allows you to work the alley more efficiently and not have to stay at the Head Gate. It is not recommended for horned cattle.
