

# CATTLEMAN'S TUB AND ALLEY

Chute not included

**Cattleman's Tub and Alley Package** Order No. 006-30000

The Cattleman's Tub and Alley is one of Powder River's most popular sweep tub and alley systems. If you desire a sheeted system and System 2000 is out of your price range, the Cattleman's System is for you. The Cattleman's System is 67" tall, allowing you to work cattle without the need for a catwalk, giving you a sturdy, functional working system in a very competitive price range. The 20' alley can be set up straight or curved and the tub can be set up for end or center feed.

## FEATURES

- ★ Includes 4-Deluxe Alley Bows, fully adjustable from 18" to as wide as 30"
- ★ Alley, heavy duty 14-gauge frame, 16-gauge sheeting
- ★ Alley can be curved or straight depending on requirements
- ★ Three section Sweep Tub is 14-gauge frame and 14-gauge sheeting
- ★ 10' Sweep Tub Crowd Gate includes spring loaded latch
- ★ HD Sweep Tub top and bottom braces add additional support
- ★ The 67" height of the tub and alley is high enough for good cattle flow, yet low enough to access cattle without the need for a catwalk
