

Eqyss Micro-Tek® Equine Spray

Eqyss Grooming

**Maximum Strength
For Horses With Skin Problems**

Cruelty Free

**Micro-Tek® Equine Spray
Soothes on Contact
Safe for Pets**

Soothes on contact. Eqyss' most popular formula. Fast acting, safe and effective for animals of all sizes. Helps scratching, itching, biting, or rubbing red irritated skin. Provides a healthy environment for healing. Easy to use—just lightly mist on affected areas. Best if used with Micro-Tek Shampoo for maximum effectiveness. Non-Slip—can be used on saddle area. Safe for all horses, ponies, pregnant mares and foals. Floral fragrance. Eqyss recommends to use Premier Shampoo & Spray.

- Soothes red, irritated skin on contact
- Helps scratching, itching, and rubbing
- Won't burn or hurt irritated skin or open wounds
- Safe to use on genital area
- Non-steroidal

Caution: Do not use this spray with any other medicated products, particularly IODINE OR BETADINE products. Swelling may occur.

Directions: After washing with Micro-Tek® Shampoo, push hair away from affected area, exposing skin, and spray directly on it. Let hair fall naturally back into place and mist entire coat, mane, and tail with light spray. DO NOT RINSE. Continue spraying affected areas 1.2 times per day or as often as needed.
