

Micro-Tek ® Equine Shampoo

EQyss Grooming Products

MAXIMUM STRENGTH
For Horses With Skin Problems

Cruelty Free

SOOTHES ON CONTACT
Safe For Pets

Soothes on contact. EQyss' most popular formula. Fast acting, safe and effective for animals of all sizes. Helps scratching, itching, biting, or rubbing red irritated skin. Provides a healthy skin problem environment for healing. Cleanses even the dirtiest horse without stripping essential oils from the coat and skin. Best if use with Micro-Tek Spray for maximum effectiveness. pH balanced. Safe for all horses, ponies, pregnant mares and foals. Floral fragrance. When problems are eliminated, EQyss recommends to use Premier Shampoo and Spray.

- Soothes red, irritated skin on contact
- Helps scratching, itching, and rubbing
- Won't burn or hurt irritated skin or open wounds
- Safe to use on genital areas
- Non-steroidal

CAUTION: Do not use this spray with any other medicated products, particularly IODINE or BETADINE products. Swelling may occur.

Directions: Put 2 or 3 ounces of Micro-Tek Shampoo in a bucket, wash entire horse as you normally would. Leave shampoo on 2-3 minutes before rinsing. Then put shampoo on a wet sponge and wash affected areas, leave on for 5-7 minutes and rinse off thoroughly. Spray affected areas with Micro-Tek® Spray 1-2 times daily. Repeat shampooing weekly.
