Conditions Skin & Coat with Lanolin & Essential Oils

Includes Concentrate & 32 oz. Spray Bottle

It's What Your Horse Would Buy!™

- Conditions Coats
- Helps Skin
- With Lanolin & Essential Oils

DILUTE & SHAKE WELL BEFORE USING

Step 1: Dilute the Concentrate

1. Empty entire contents of small bottle into the 32 ounce spray bottle.
2. Add 28 ounces (3.5 cups) of clean water to the spray bottle. Fill to the top.
3. Shake until fully combined. This diluted concentrate makes up to one quart of spray.

Step 2: Test for Sensitivity

1. Some horses may be sensitive to Flicks. Test a small spot BEFORE spraying over their entire body. Rinse immediately and do not use if your horse shows any signs of irritation.

Step 3: Brush & Spray

1. Brush your horse's coat to remove any excess dust or dirt.
2. Hold the spray bottle approximately 12 inches away from your horse and spray their coat.

Do not over spray. Pay special attention to their shanks, shoulders and legs.

Be sure to avoid their eyes, ears and face. For these areas, apply the diluted spray onto a cloth and gently wipe their face avoiding direct contact with their eyes, ears, nostrils and mouth.

Attention

Dilute & Test Before Use

Always dilute concentrate with water before using. Avoid contact with your horse's eyes, ears and mucous membranes.

After diluting the concentrate, test for sensitivity in a small spot on your horse that is easy to rinse.

If your horse shows signs of skin irritation, rinse the spot thoroughly and discontinue use.

For use as needed.

Wash your hands after each use.

In case of eye contact, flush thoroughly with water.

If irritation occurs, contact a physician immediately.

For use on horses only.

Keep out of reach of children.
