Water (77%)
Fragrance (1%)
Dye (1%)

5-Day Blister is a revolutionary humane water soluble blister used in the relief of bowed tendons, bucked shins, ankles, knees and suspensories.

WARNING

USE AS DIRECTED

It is recommended that you stop feeding grain 24 hours before treatment.
Do not clip hair, use on dry clean legs only.

Apply one time only using approximately 1 oz. per leg.

Shake well before using.

Directions:

1st day: Apply full strength, using hands or leg brush. Work well into hair until heavy paste-like lather is formed. Do not bandage. Wash hands with soap and water immediately after use.

2nd day: Walk 15 minutes (morning and evening).

3rd, 4th, and 5th Days: In the morning apply water using a hose for 15 minutes, then walk for 30 minutes. Evening: Apply water, using a hose for 15 minutes, and then walk the horse for 30 minutes.

After the 5th day, horse may swim, be turbulated, or returned to "light" training, at trainers discretion.

Caution:

Do not apply to open wounds or irritated skin. Avoid getting into eyes or on mucous membranes.

Keep out of reach of children.

Causes eye damage and skin irritation in humans. In case of contact, flush eyes or skin with plenty of water for at least 15 minutes. Obtain medical attention for eye irritation. For use on non-food animals only. Use only as directed.
