

NEW ProHepatic™

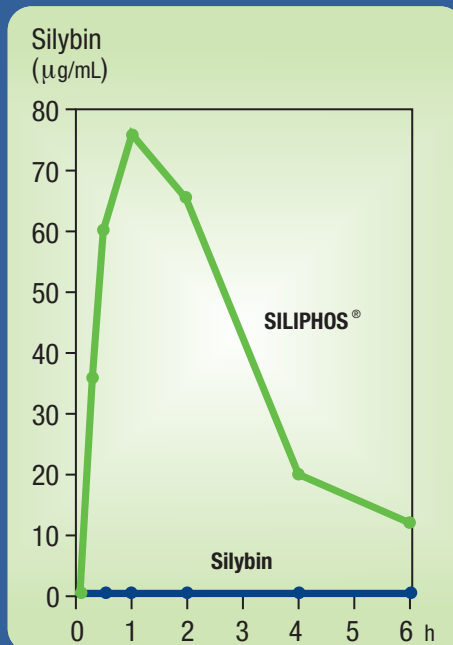

Liver Support Formula for Dogs and Cats

- Therapeutic Milk Thistle-based liver support
- No SAME = fewer side effects/contraindications
- Especially beneficial for **pets taking NSAIDs**
- **Competitively priced**
- **100% satisfaction guarantee**

Oxidation and membrane damage by free radicals **occur in the cell pathology of nearly all liver diseases.** ProHepatic™ is a potent antioxidant formulation that **provides liver function support and protection** from various causes of liver disease, including oxidation. The main ingredient is Siliphos®, which is a complex of silybin, the main active constituent of milk thistle, and phosphatidylcholine. This bioavailable form of silybin is efficient in supporting glutathione levels.

Main ingredients:	M/L Dog	Cat/Sm Dog
Silybin	90mg*	45mg*
Bioflavanol	20mg	10mg
Zinc	2mg	1mg

*3x the amount compared with other veterinary liver support supplements.

Mean plasma levels of total silybin after treatment with SILIPHOS® and silybin in rats (n=6).
