

QuickFinder® deluxe™

MiracleCorp™ Products

Safety Nail Clipper
Large or Hard Nail Breeds

QuickSensaor™ Technology
Ideal for Home or Professional Use

QuickSensor™ Technology created for the QuickFinder® deluxe™ makes this safety nail clipper the preferred choice for clipping dog's nails. The sensor detects your pet's quick, then gives you visual cues of red, yellow and green to let you know when not to clip, when to be cautious and when it is safe to clip.

Hold the clipper with the sensor facing the paw.
Move clipper to nail base to detect quick. Do not clip.
Move clipper toward nail tip until light turns green. It is now safe to clip.

How to Use The QuickFinder®:

Please refer to the Owner's Manual for detailed operating instructions.

1. Power on QuickFinder® deluxe™.
2. When light strip shows steady **Red** move the clipper to the base of the nail. The light strip will remain **Red**.
3. Move the clipper back toward the tip of the nail. The light strip will change to **Yellow** and then **Green** when it is safe to clip.
4. Clip nail.
