

PROTECT™

COLOSTRUM SUPPLEMENT

20 % ADDED FAT FOR ENERGY

Provides the Boost of Energy Calves Need

50 g GLOBULIN PROTEIN

Helps Build & Support the Immune System

SERUM BASED FORMULA

Proven Formulation for Better Absorption

LIFELINE Protect Colostrum Supplement

Enhanced colostrum supplement with essential added fat & carbohydrates for energy.

LIFELINE Protect bridges the nutritional needs of newborn calves facing early-life challenges when maternal colostrum is insufficient. Formulated with **20% added fat**, carbohydrates, and **50 grams of globulin protein** per feeding, Protect energizes calves and promotes critical immune function, helping them grow strong from the start. This high-quality, serum-based formula mixes smoothly and effectively, giving calves the boost they need in their earliest, most crucial hours.

Key Features:

- **Energy Boost** – 20% added fat and carbohydrates provide calves with the essential energy they need for a strong start.
- **Globulin Protein** – Delivers 50 grams of high-quality globulin protein to support immune health and essential nutrition.
- **Smooth Mixing** – Mixes quickly with warm water and reaches a smooth consistency in under a minute, ensuring it's ready when you need it most.

Why Choose Protect?

- **Rapid Performance** – Designed for fast absorption, Protect promotes calf vitality with noticeable results from the very first feeding.
- **Targeted Nutrition** – Specifically formulated to supplement maternal colostrum, ensuring calves meet their critical early nutritional needs.

Measurable Value

Protect is a cost-effective way to safeguard calf health and growth. By supplementing calves with immediate and long-lasting nutrition, Protect supports optimal vitality and performance, adding value to your operation from the very start.

Choose LIFELINE Protect—the colostrum supplement that gives newborn calves the energy and immune support they need to thrive.

FEEDING DIRECTIONS

Add 1 Pouch of Protect (1 lb)
to 1.5 Quarts of Warm Water
(105°F)

Using a Whisk, Mix
Thoroughly Until Smooth
(1 Minute)

Pour Mixed Solution into
Bottle, Feed & Protect Your
Calves

FEEDING GUIDELINES

Protect should be fed in addition to colostrum and has its greatest impact when fed within 4 hours of birth. Mix 1 package with 1.5 quarts of warm (105°F/40°C) water. Stir until completely dissolved. Feed to the calf in one feeding via nipple feeder or esophageal feeder as soon as possible following birth.

AFTER DAY ONE - ADVANCED BENEFITS OF COLOSTRUM

- Continue feeding Protect after the first day to ensure continued protection and optimal nutritional benefits.
