

LifeLine® Rescue™ High Level Colostrum Replacer

Lifeline Annuso

Newborn Beef & Dairy Calves

Advanced nutrition when colostrum is unavailable

Nutritionally equivalent to feeding maternal colostrum to newborns

Provides 150 g of Globulin Protein in only one feeding

Smooth, easy mixing with water

LifeLine Rescue is formulated to replace colostrum for newborn calves when maternal colostrum is unavailable, and to guarantee the best nutrition for high-value calves facing environmental challenges. The serum-based formulation delivers 150 grams of globulin protein plus a researched blend of fat, carbohydrates, vitamins and minerals for superior nutrition in just one feeding.

Feeding Directions

Rescue is the first feeding and has its greatest impact when fed within 4 hours of birth. Mix 1 package with 1.5 quarts of warm (105°F/40°C) water. Stir until completely dissolved. Feed to the calf in one feeding via nipple feeder or esophageal feeder as soon as possible following birth.

Storage

Store at room temperature in a dry place. Use mixed product immediately—do not store.

The Lifeline Promise

Our promise to you is to deliver innovative products that are easy to use, highly palatable and provide a quick visual response. It's that simple. Because we know you care about your animals and we – just like you – want to see them healthy and *thriving*.
