Recommended dosage: Feed 2 scoops twice daily.

Competition: Feed 2 scoops twice daily. Feed an extra 2 scoops before competition and an extra 2 scoops after competition.

Regular Maintenance and Young Horses: Feed 1-2 scoops twice daily.

Brood Mares: Feed 2 scoops twice daily.

Breeding Stallions and Lactating Mares: Feed 2-3 scoops twice daily.

Pleasure Horses and Trail Riders: Feed 2 scoops twice daily. Feed an extra 2 scoops after trail rides.

Jumpers: Feed 3 scoops twice daily. Feed an extra 3 scoops immediately after training or competition.

Barrel Horses: Feed 3 scoops twice daily. Feed an extra 3 scoops immediately after training or competition.

Race Horses: Feed 3 scoops twice daily. During competition, feed an extra 4 scoops 3 hours before racing, and an extra 4 scoops immediately after racing.

Polo Horses: Feed 3 scoops twice daily. Feed an extra 3 scoops before match and an extra 3 scoops after match.

Hunters: Feed 3 scoops twice daily. Feed an extra 3 scoops before hunting and an extra 3 scoops after hunting.

Dressage Horses: Feed 2 scoops twice daily. During heavy training and competition, add an extra 1 scoop twice daily.

Halter: Feed 2 scoops twice daily. Feed an extra 3 scoops twice daily one day before show, and feed an extra 4 scoops three hours before halter classes.

Gaited Horses and Paso Horses (Tennessee Walkers, Fox Trotter, American Saddlebred, Icelandic, Paso Fino, etc.): Feed 2 scoops twice daily. If the horse will be showing in repetitive classes feed 1 scoop after each class.

Arabian Show Horses: Feed 2 scoops twice daily. Feed an extra 2 scoops immediately after competition.

Reining and Cutting Horses: Feed 2 scoops twice daily. Feed an extra 2 scoops immediately after competition.

Performance Horses: Feed 2 scoops twice daily. During showing or competition, feed 4 scoops twice daily.

Retired Horses: Feed 2 scoops twice daily.

Senior Horses: Feed 2-3 scoops twice daily.

Miniature Horses: Feed 1/2 scoop twice daily. Feed an extra 1 scoop immediately after a show or event.

Speed Recovery after Surgery/Injury: Feed 3 scoops twice daily to speed healing of wound and tissue.

Immunonutrition: After surgery or injury feed 2 to 4 scoops twice daily.

EquineSaver® with NutraSaver® -EQ	
Serving Size	1 scoop
Each scoop contains:	
KCAL (Therms)	498 Kcal/100g
Carbohydrates	27 g 9%
Crude Fiber	12 g 16%
Crude Fat	25 g 27%
Crude Protein	22 g 18%
Linolenic (Omega-3) Acid	80g/lb
Linolenic (Omega-6) Acid	52g/lb
Olenic (Omega-9) Acid	42g/lb
Ash	10.69% 14g
Servings based on an average horse weight of 1,000 lbs.	

• **Keep out of the reach of children.**

• **For veterinary use only.**

Warning: This product should not be given to animals intended for human consumption.

EquineSaver® is a nutritional dietary supplement. For animal use only. Keep this and all other medications out of the reach of children. Store at room temperature (59° - 86°F, 15° - 30°C). Replace and seal lid after each use. Use within 180 days of opening. This product is sold by weight not volume. Some settling of contents may have occurred during shipping and handling.

A supplement for all classes of horses!

Made In U.S.A.
