

AspirEase™ Natural

Bio-Nutrition

Natural Relief for Acute Pain, Inflammation, and Fever

A Natural Alternative to Aspirin Based Products!

4 Equine Doses

Net Vol 2.7 fl oz (80 cc)

AspirEase™ Natural is a salicin based equine supplement to aid horses in the relief of painful symptoms associated with acute conditions such as wounds, cuts, abrasions, fever, and soft tissue pain. Salicin, a highly refined and natural precursor to aspirin, offers the same benefits of aspirin while remaining easy on the stomach and reducing the risk of blood thinning. AspirEase™ Natural is a gentle option for the relief of acute pain and is microencapsulated and flavor enhanced for optimal palatability.

Active Ingredients per 20 cc

Salicin 272 mg

Methylsulfonylmethane (MSM) 5438 mg

Inactive Ingredients

Water, glycerin, lecithin, soy oil, guar gum, sucrose, dextrose, cornstarch, butylated droxyanisole, artificial apple flavoring.

Cautions

For use in horses. Not for use in animals intended for consumption. Keep away from children and other animals.

Directions For Use

Orally administer one 20 cc dose, one to two times daily to adult horses as needed, at or before feeding. Do not exceed 80 cc in a 24-hour period. Store in a cool, dry place. Do not freeze.
