

Arthrosamine™

MD's Choice

Total Joint Health™
For Dogs of All Ages

Beefy Chewables!
A 60-120 Day Supply!

Give Arthrosamine™ to your pet!

To help prevent joint wear and tear due to aging or over use, joint injuries or arthritis. **Arthrosamine™** provides the key nutrients required for total joint and connective tissue health. It contains the highest quality ingredients in their most active forms. While it is not a pain reliever, studies with people have shown that after the first four weeks of daily use, Glucosamine Sulphate 2KCL reduced pain more than ibuprofen did.

What's in Arthrosamine™?

Glucosamine Sulphate: The basic building block of cartilage, ligaments, tendons and joint fluid.

Methylsulfonylmethane: Supplies biologically active sulfur, a necessary element in connective tissue, skin, coat, nails & immune system.

Ascorbate: Necessary for collagen synthesis which is vital to the health of joints.

Manganese: Essential in the formation of cartilage*.
