Ingredients

Calcium Carbonate, Processed Grain By-Products, Soybean Oil (Preserved with B.H.T. B.H.A. (Propyl gallate)).

Feeding Directions

Mix 0.4 pounds of OptaChamp™ daily with grain and roughage sources to make a complete feed to provide 225 mg/head/day of Ractopamine Hydrochloride. Feed continuously at a rate to supply a minimum of 90 mg/head/day and a maximum of 400 mg/head/day. OptaChamp™ is a feed supplement to be fed continually to confined cattle for the final 28 to 42 days on feed for increased rate of weight gain, improved feed efficiency, and increased carcass leanness. This bucket will supply a 30 day feeding period when OptaChamp™ is fed at a rate of 0.4 lb/head/day.

WARNING: NOT FOR USE IN HUMANS

Caution: Not for animals intended for breeding.

Limitations: Feed continuously as sole ration during the last 28 to 42 days on feed.
